# VERA Feedback System

B+C Hybrid — Structured skeleton with warm polish. Complete design spec for all feedback layers.

SECTIONS

0. Design Tokens
1. Field Validation
2. Form Alerts
3. Toast Notifications
4. Page Banners
5. Modal Feedback
6. Table States
7. Jury / Scoring
8. UX Rules

00

## Design Tokens

Shared color, spacing, and shape primitives. Every feedback component derives from these tokens.

STATUS COLORS

| Success | Warning | Danger | Info | Editing |
|---|---|---|---|---|
| #22c55e | #d97706 | #e11d48 | #3b82f6 | #8b5cf6 |

ANATOMY OF A FEEDBACK ELEMENT

**Left accent bar** ← instant type recognition
Rounded icon badge + title + description body. Consistent across all layers.

SHAPE TOKENS

**Border radius**
Compact: 8px · Default: 12px · Large: 16px

**Icon badge**
30×30px · radius 8px · 1px border

**Toast icon**
32×32px · circular · 1px border

**Accent bar**
3px wide · full height · left edge

01

## Field-Level Validation

Inline validation under each input. Error → red border + ring + helper. Success → green border + check. Default → neutral with optional hint text.

DEFAULT

Semester name

EE 491 — Spring 2026

Must be unique within this tenant

ERROR

Email address *

john@invalid

Please enter a valid email address

VALID

Juror name *

Dr. Ayşe Yılmaz

✓ Looks good

REAL EXAMPLES

Project title *

Enter project title

Project title is required

Semester name *

EE 491 — Spring 2026

A semester with this name already exists

Weight *

abc

Must be a number between 0 and 100

02

## Form-Level Alerts

Section or form-wide messages. Left accent bar + icon badge. Placed above the form or the relevant section.

**Criteria total must equal 100**
Current total is 85. Adjust weights before saving.

**Some required fields are missing**
Please complete all highlighted fields before saving this form.

**This semester already has scores**
Structural changes (criteria, projects) are restricted while scores exist. You can still edit labels and descriptions.

**Import completed successfully**
12 projects imported. 2 duplicates were skipped.

**You have unsaved changes** ×
Changes to evaluation criteria will be lost if you navigate away.
Save now

03

## Toast Notifications

Ephemeral notifications. Bottom-right stack. Auto-dismiss after 4s. Same anatomy: left accent bar + circular icon + close button.

SUCCESS

**Juror added**
Dr. Yılmaz has been added to this semester

ERROR

**Failed to save changes**
Network error — check your connection

WARNING

**Token expires soon**
Entry token will expire in 2 hours

INFO

**Semester opened**
Navigate to Settings to manage this semester

STACKED (REAL POSITIONING)

STACKING PREVIEW

**Export started**
Preparing XLSX file...

**PIN reset complete**
New PIN: 8472

SECTIONS

2. Form Alerts
3. Toast Notifications
4. Page Banners
5. Modal Feedback
6. Table States
7. Jury / Scoring
8. UX Rules

04

## Page-Level Banners

Persistent, page-wide notices. Compact single-line. Placed at the top of the content area, above the page title.

Demo mode — data is read-only and resets periodically

Semester is locked — evaluation period has ended

Editing enabled for Dr. Yılmaz — changes will overwrite existing scores — Disable editing →

Entry token has expired — jurors can no longer access this semester — Generate new token →

3 filters applied — showing 8 of 24 results — Clear filters →

05

## Modal Feedback

Inline feedback within modal dialogs. Compact alert variant without left bar. Appears above footer or under the relevant field.

**Delete Semester**

This will permanently delete **EE 491 — Spring 2026** and all associated scores, projects, and juror data.

Type the semester name to confirm

EE 491 Spring

Name doesn't match. Type exactly: **EE 491 — Spring 2026**

Cancel | Delete permanently

**Import Results**

Imported **12 projects** from CSV file.

**3 records skipped**
Row 4: missing title · Row 8: duplicate group · Row 11: invalid format

9 projects imported successfully

Done

06

## Table & Data States

Empty, filtered-empty, error, and loading states for tables and data sections. Centered content with icon + title + description + optional CTA.

Clear filters

**Failed to load data**
Something went wrong loading audit records. Please try again.
Retry

**No scores available**
Rankings will appear once jurors begin submitting evaluations

**Heatmap unavailable**
At least 2 jurors with completed scores are needed to generate the heatmap

**Loading data...**
Fetching records from the server

07

## Jury & Scoring Feedback

Specialized feedback for the jury evaluation flow: score validation, autosave status, PIN errors, and submission states.

SCORE INPUTS

| Technical /30 | Design /30 | Delivery /30 |
|---|---|---|
| 24 | 35 | 27 |

Max is 30

AUTOSAVE STATUS

Saving...
All changes saved
Save failed — retrying

JURY FLOW ALERTS

**Incorrect PIN**
The PIN you entered doesn't match. Please try again or contact the administrator.

**Incomplete scoring**
2 of 8 projects have missing scores. Complete all evaluations before submitting.

**Entry token invalid**
This evaluation link has expired or been revoked. Please request a new link from the administrator.

08

## UX Rules — When to Use What

Decision matrix for choosing the right feedback type. Consistency rules for the entire application.

| Scenario | Field | Alert | Toast | Banner | Modal |
|---|---|---|---|---|---|
| Invalid field value | ● | — | — | — | — |
| Multiple missing fields | ● | ● | — | — | — |
| Criteria total ≠ 100 | — | ● | — | — | — |
| CRUD success (add/update/delete) | — | — | ● | — | — |
| Network/save failure | — | — | ● | — | — |
| Semester locked / demo mode | — | — | — | ● | — |
| Editing enabled for juror | — | — | — | ● | — |
| Destructive confirm (delete) | — | — | — | — | ● |
| Import with warnings | — | — | — | — | ● |
| Unsaved changes | — | ● | — | — | — |
| Score autosaved | — | — | — | — | — |
| PIN incorrect | ● | ● | — | — | — |
| Scores submitted successfully | — | — | — | — | — |

**When to use Toast**
✓ Async operation completed (CRUD, export, import)

**When to use Banner**
✓ Mode indicators (demo, locked, editing, review)

✓ Background errors (network, save failure)
✓ Brief confirmations that don't need user action
✗ Never for validation — use field/alert instead
✗ Never for persistent state — use banner instead

✓ Filter status (showing partial results)
✓ Persistent warnings (token expiry, limitations)
✗ Never for momentary events — use toast instead
✗ Never for form issues — use alert instead

**Special: Score autosave & submission success**

Autosave uses the **inline autosave pill** (saving → saved → error) — not a toast. Submission success uses the **full-page done screen** with checkmark — not a toast or modal. Both are unique to the jury flow and don't follow the standard pattern.
